WORKSHOP ON JAVA DEVELOPMENT

EVENT DETAILS

Date: 2026-03-30

Duration: 10:00 AM

Organized By: Department of Computer Science

Speaker: Ms. Priyanka Chavhan

Designation: Professor

Who Can Attend: Students and Faculty members can attend the session.

SESSION CONDUCTED BY

HOD: Dr. Pallawi Bulakh

Coordinator: Dr. Satish Ambike

Anchor: Avanti Joshi

Vote of Thanks: Priti Bhodwe

OBJECTIVE

1. To introduce students to the fundamentals of Java programming.
2. To develop problem-solving and logical thinking skills using Java.
3. To understand core concepts such as variables, data types, operators, and control statements.
4. To learn Object-Oriented Programming (OOP) concepts like classes, objects, inheritance, polymorphism, abstraction, and encapsulation.
5. To provide hands-on practice in writing and executing Java programs.
6. To familiarize students with Java development tools and environments.
7. To understand exception handling and basic debugging techniques in Java.
8. To introduce students to basic file handling in Java applications.
9. To build simple real-world applications using Java programming.
10. To enhance students' readiness for internships, projects, and software development careers.

SUMMARY

The Java Development Workshop was organized to introduce students to the fundamentals of Java programming and modern software development practices. The workshop aimed to strengthen students' understanding of basic programming concepts such as variables, data types, operators, and control statements. It also focused on the core principles of Object-Oriented Programming, including classes, objects, inheritance, polymorphism, abstraction, and encapsulation.

Through practical demonstrations and hands-on coding sessions, students learned how to write, compile, and execute Java programs effectively. The workshop also introduced students to commonly used development tools and basic debugging techniques. Participants gained knowledge about exception handling and simple file handling in Java applications.

The session encouraged students to apply logical thinking and problem-solving skills while developing small programs and real-world examples. Interactive activities and coding exercises helped students build confidence in programming. Overall, the workshop provided valuable exposure to Java development and motivated students to explore further learning opportunities in software development and technology.
